Design Risks

Users hesitant to share their location

Users fail to crowdsource room data

Implementation Risks

Difficulty of capturing location data

Development Risks

Inability to use MIT facilities,
Custodial staff removing QR codes

Design Risks

Users hesitant to share their location ➡ Offer multiple sharing options

Users fail to crowdsource room data ➡ Provide location login concepts (NFC, QR Codes)

Implementation Risks

Difficulty of capturing location data

Development Risks

Inability to use MIT facilities,
Custodial staff removing QR codes

Design Risks

Users hesitant to share their location ➡ Offer multiple sharing options

Users fail to crowdsource room data ➡ Provide location login concepts (NFC, QR Codes)

Implementation Risks

Difficulty of capturing location data ➡ Force mobile check-in

Development Risks

Inability to use MIT facilities,
Custodial staff removing QR codes

Design Risks

Users hesitant to share their location ➡ Offer multiple sharing options

Users fail to crowdsource room data ➡ Provide location login concepts (NFC, QR Codes)

Implementation Risks

Difficulty of capturing location data ➡ Force mobile check-in

Development Risks

Inability to use MIT facilities,
Custodial staff removing QR codes ➡ Keep all functionality within the website
